CLICK2PAY SOLUTION

CLICK2PAY is the innovative payment solution for merchants and customers designed to make payments for products, services and digital content on the Internet quick, easy and secure. The diverse range of national and international payment options offered by the system reflects the global orientation of CLICK2PAY.

The integration of CLICK2PAY provides e-commerce merchants with comprehensive functions for reliably billing digital content such as streamings, downloads, subscriptions and services worldwide. With CLICK2PAY customers enjoy maximum cost control and transparency combined with security, user-friendliness and flexibility.

CLICK2PAY has a large network of international merchants and partners and is used by our customers around the world.

FOR ALL INDUSTRIES

A diverse range of industries and business models benefit from CLICK2PAY as an innovative payment solution for global transactions:

- **Digital content**
CLICK2PAY is a reliable tool for processing payments for content such as streamings and downloads. The automated billing function for subscriptions also supports e-commerce merchants in setting up and independently managing recurring payment processes.
- **Products and services**
Sophisticated fraud protection processes make CLICK2PAY the most secure payment solution even for more expensive goods and services.

CLICK2PAY has been designed for a very diverse range of applications. Whether it's media sales, software downloads, online games, multimedia applications or entertainment – CLICK2PAY supports providers of Internet services from all industries across the world in successfully growing their business.
